Objective

To obtain an academic position at a reputable Egyptian university where I can effectively apply my academic background and research expertise in animal physiology, toxicology, and pharmacology. I seek to contribute to the advancement of scientific knowledge, engage in high-quality teaching, supervise postdoctoral research, and actively participate in collaborative academic projects. My goal is to support the educational mission of the institution while continuing to grow as a dedicated researcher and mentor.

Education

PhD in Science, Sohag University 2024
